

## cdmNet News

### Updating the cdmNet Desktop application

*Posted on May 17, 2016 09:58 am*

The cdmNet desktop application updates automatically. However, if you are having difficulties connecting to cdmNet through your practice computer, this auto update may not be working.

#### **To check you are using the most recent version**

- Click on the cdmNet icon near the date and time and select **Check for update**
- The text bubble will tell you if you need to update
- If you do, click on the bubble to be directed to the cdmNet help age
- Click on **Downloads** and then **cdmNet Desktop Software**
- Follow the installation wizard prompts to complete the update

If you have any difficulties updating cdmNet desktop please contact the Support Team on 1300 236 638 or email on [support@precedencehealthcare.com](mailto:support@precedencehealthcare.com)

## Did you know- cdmNet faxes?

Posted on May 17, 2016 09:58 am

cdmNet automatically distributes all care plan related documentation and forms to the relevant care team members. Although all allied health providers and specialist on cdmNet can access these documents by logging into cdmNet, if their preferred method of contact is fax then cdmNet faxes them relevant care plan documents and forms on your behalf. By automating all care plan notifications and documentation cdmNet saves you time from administrative burden of printing and faxing and allows you to spend time where it matters the most; with the patient.

If you have any questions regarding cdmNet faxes please contact cdmNet Support on 1300 236 638 or email on [support@precedencehealthcare.com](mailto:support@precedencehealthcare.com).

## Reminder. Documenting patient consent

Posted on May 17, 2016 09:57 am

When uploading a patient health record to cdmNet, it is important that the person uploading the record obtains informed consent from the patient.

### Create Health Record

From: Dr Devika Kumar

Date: 13-May-2016 2:13 PM (Australia/Melbourne)

The patient consents to:

- share their health record in cdmNet? *(Required to continue.)* ⓘ
- share de-identified data for general research purposes?

Ignore

Create Health Record

### Obtaining Patient Consent

This consent covers the collection and sharing of health information, as well as the creation and review of care plans, health assessments and referrals using cdmNet. It is important that the patient understands they are having an electronic health record created and are informed about what will happen with the information in the record. Obtaining informed consent is a fundamental component of best practice in privacy. Please refer to the [cdmNet Consent page](#) for more information.

To assist you to explain cdmNet to the patient, you can use the [cdmNet patient information leaflet](#), accessible from the information icon next to the patient consent

box.
